## **C. Activities at the Centre for WTO Studies (CWS)**

- ❖ Creation of web based databases like SPS and TBT measures based on the notified to WTO by 163 members;
- ❖ Analysis and research and report writing are the primary tasks at the Centre for WTO Studies (CWS), under the Department of Commerce, GoI.
- ❖ Delegated to Joint Study Groups (JSG) for PERU and MERCUSOR

## **C.1 Creation of Two Databases**

- ❖ Conceptualised and created two web-based databases from 2003 onwards on non-tariff measures (NTMs) like the Sanitary and Phytosanitary Measures (SPS) and Technical Barriers to Trade (TBT) notified to the WTO. The web portals hosting the two databases came into existence on December 2009.
- ❖ The databases provide a detailed account of trade linkages in HS 4 digit terms for all SPS and TBT notifications made under the WTO by all the Members. It should be noted that most of these notifications up to 80 percent in terms of number do not provide the trade link- there are close to 50,000 thousand such notifications. The CWS databases provide information on the trade link upto 100 percent of the SPS and TBT notified by the WTO members.
- ❖ Objectives of the creation of the database web portal is to help India's exporters to have a better assessment of their market potentials in the global scenario – increasingly non-tariff measures like (SPS and TBT) have been replacing the role played by tariffs in trade policy. The databases are comprehensive and cover all the WTO members from January 1995 to January 2016.

### ***Details of the two databases:***
