

# What is the purpose of the TBT Agreement (in a nutshell)?

What are “legitimate objectives” under the TBT Agreement – and is there a difference with SPS?

# How do you establish whether a measure is TBT or SPS?

# What is the difference between a “standard” and a “technical regulation”?

(from legal perspective and economic)

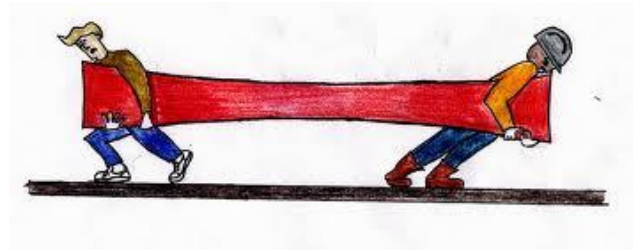

# What are the key disciplines of the TBT Agreement?

= ≈

Why is there “tension” with respect to the use or non-use of international standards in the TBT area?

# What is the purpose of the TBT Committee and what mandate does it have?

*Sardina Pilchardus*

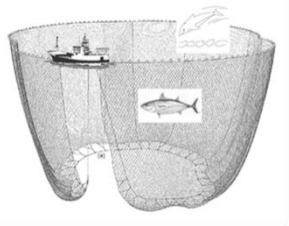

*Sardinops Sagax*

# What does the jurisprudence suggest to date on WTO key principles?

Importance of participating in int'l standardizing activities (sardines); what is an international standard? (body that sets, procedural issues, Committee Decision); the effect of a measure is importance (de facto discrimination); some adverse impact is normal with regulation – that is not the issue (issue is LRD); different situations are also important; no violations on 2.2 – more deference to governments when pursuing legitimate objectives?; government action -> technical regulation;

# What are the key challenges for India in the implementation of the TBT Agreement?

If you were to negotiate a WTO TBT v.3  
what you change?
