

Professional Bio

Deeksha Yadav is an Economist at the Centre for WTO Studies. She holds a Master's degree in Economics with a specialization in World Economy from the Centre for International Trade and Development (CITD), JNU and a Bachelor's (Hons.) degree in Economics from Gargi College, University of Delhi. Her work primarily focuses on trade in services, with experience in trade in goods and macroeconomic analysis. Her research interests encompass international trade policy, trade in services, WTO issues, regional and bilateral trade agreements, economic modelling, and quantitative data analysis. She has authored publications on international trade, including a book chapter on the impact of artificial intelligence on trade, and has served as a peer reviewer for Cambridge Elements.
