Workshop on TradeSift Trade Policy Workshop

A four day 'TradeSift Trade Policy Workshop' was jointly organised by the Centre for WTO Studies, New Delhi and InterAnalysis Ltd., University of Sussex, United Kingdom from 21 to 24 February 2012. The training programme was attended by 23 participants from Government of India, research organizations, trade chambers, export promotion organizations and academic institutes.

Tradesift is a simple to use yet powerful software which uses trade and tariff data to analyse patterns of international trade. It includes an extensive selection of trade indicators, the ability to graph and sort the results and the facility to quickly and effectively create reports of the findings to enhance the analysis.
